## Terms and Conditions

The cylinder carries a guarantee against faulty manufacture or materials, provided that:

- The product is used solely for the storage of mains quality potable water.
- The product has not been modified or tampered with.
- The product has been installed and maintained in accordance with the installation instructions.
- The product has not been subjected to damage caused by frost, or other external influence.
- Within 28 days of installation, the Guarantee Card, supplied with the product, has been completed and returned to CMS

**The immersion heater, water control valves, cylinder thermostat and energy cut out valves are guaranteed for one year from the date of manufacture.**

Claims made against our Guarantee must be supported with evidence of purchase and the product serial number, along with a copy of the completed Benchmark Log Book. Your Statutory rights are not affected by this guarantee.

**Failure to carry out the annual safety check on this product will invalidate the guarantee.**
